**Host organization**
World Economic Forum, Global Maritime Forum, Mission Possible Partnership

**Mode covered**
Deep-Sea Shipping

**Region**
Europe, North America, Asia (Singapore, Japan, Republic of Korea, Hong Kong). Looking to engage companies operating in Africa, Latin America, China, SIDS.

**Objective**
Coalition of over 200 companies form across the maritime value chain working to scale and commercialize zero emission vessels operating along deep-sea trade routes by 2030 – supported by necessary infrastructure and zero-emission fuels. Added ambition to fully decarbonize the sector by 2050 in line with science-based targets.

**Benefits of this initiative**
Exchange in best practices; Informing inclusive policy at the IMO and EU; Networking with other members; collaborating on industry action through green corridor advisory group for example.

**How to engage**
Applying for membership (Application form still being finalized, can reach out to Forum team for now). No membership fee.

**General Pledge**
- Commitment to zero emissions by 2050.

**Related Policy or advocacy work**
Close work with the IMO and governments worldwide.

**Projects**
Green Corridor Pilot project; P4G-Getting to Zero Coalition Country Scoping and Opportunity Reports.

**Key Words**
